“Make Two Caddys” – Steps 2-9

Step 1c) Let's prepare our Caddy pattern pieces.

- First, align Your Caddy Bottoms (#3c) RST with your Caddy Tops (#3a & #3b) along quadruple-notched edges.
- Then, center and fuse Caddy Interfacing to WS of both the Inner and Outer Caddy.

As you can see, there's a difference between the Inner and the Outer Caddy...

The Outer Caddy has a curved top edge, but the Inner Caddy has a straight top edge.

Step 2) Now we'll make our first fold starting at the bottom edge of a Caddy.

With Caddy right-side DOWN on flat surface, fold bottom single-notched edge of Caddy down so its wrong-sides together along your 'A' fold line, until the 'A' double notches align. Press flat.

Step 3) Now flip your Caddy over so its wrong side down on the table and bring your 'A' fold line UP until the 'A' and 'B' double notches align. Press flat, pin to secure.

Step 4) Flip Caddy over so its right-side DOWN its right-side DOWN on the table again, keeping your 'A' and 'B' notches secured together. Now fold bottom pressed end of Caddy DOWN wrong-sides together along 'C' fold line until your 'C' single notches align. Press flat and pin to secure.

Step 5) Flip Caddy over so its wrong-side DOWN on table , then bring your 'C' fold line UP until the 'C' and 'D' single notches align. Press flat and pin in place to secure the whole area.

Step 6) Flip Caddy over right-side DOWN on table again, and with both previous pressed edges held together, fold bottom pressed end of Caddy DOWN (wrong-sides together) along 'E' fold line until both 'E' double notches align. Press flat.

Are you getting the picture? :)

Step 7) Flip Caddy over wrong-side DOWN bringing 'E' fold line UP until 'E' and 'F' double notches align. Press flat then pin in place to secure.

Step 8) Flip Caddy right-side DOWN on table one more time. With previous folds secured, fold bottom pressed end of Caddy DOWN wrong-sides together along your 'G' fold line until the 'G' single notches align. Press flat.

Now flip Caddy wrong-side DOWN on table bringing this last fold line UP until your 'G' and 'H' single notches align. Press flat and baste ~1/8" from both sets of notched side edges to secure the entire unit.

Now use this same procedure to create your 2nd Caddy.
