

PortaPocketsPLUS—Additional pictorial help For step 67—Attaching 2nd Connector

Our 2nd Insert Connector is installed in exactly the same way, but on the opposite side of the modules. In the center of the picture above, you can see the Connector we installed in step 66, and out to the sides, the 2nd Insert Connector placements.

And here's how our two modules look zipped together. Notice how the stitched insert Connectors "bow IN" toward the center much like the Expanders do.
Now let's work on our 3rd and 4th Connectors!
