

Packlets- Finishing up, adding Bag Back - Step 28-29

28) For Double Packlets makers ONLY- Place Center Face unit face DOWN on flat surface. Push Bag Front DOWN as far as you can INTO 2nd Panel unit (see photo at right). The 2nd Panel unit should be LSO as we proceed...

29) Retrieve remaining Bag Face in exterior from step 12. Place last Bag Face LS DOWN on flat surface. Place Panel unit EST on last Bag Face in exterior by first aligning triple notches along Base edge, then matching ALL other notches & edges.

*I included this picture to remind you of how ULTRA-IMPORTANT it is to make sure your zipper remains at least partially open during these steps and until your **Packlets** is finished if you are using a zipper with a locking zipper pull.*
