

the OutBreaker

Steps —32-33— Making the Handle

I included these pictures so you could see the way I've pinned this area in place. It's kinda tricky pinning as the area can be kinda thick (very thick in my case since I was using faux leather).

It's slow going stitching thru this area too, This is one time where I make NO attempt at sewing over the pins! I stop before each pin and remove it before stitching the area!

Take your time and don't skimp on your pins and you'll be fine! :)
