

# the Bella BiFold

StudioKat Designs, Inc.

Steps 33-35 –  
Folding & Placing Your Welts

**Remember–** It's of utmost importance that you create two Welts that are "mirror-images of themselves. Follow these steps to achieve that goal.

33– Situate your 2 Welts as mine are (*in the photo above left*). Fold both Welts in half along center line and 1/4" away from the notched raw edges. Topstitch close to folded edge.

**34a–** Fold & press side edges BACK & toward the topstitched edge of Welt.

**34b–** When complete, ALL Welt folds, (including the topstitched fold) should be 1/4" from the double notched edges. Pin fold together now to "set" them.

**35–** Retrieve Bag Lining from step 31. Place a Welt on each raw side edge of Slip Pocket (*with stitch fold line of Welt pointing UP and facing raw edges*), and aligning double notches.

Stitch a scant 1/4" from edges.
