the Cignet Purse Pal

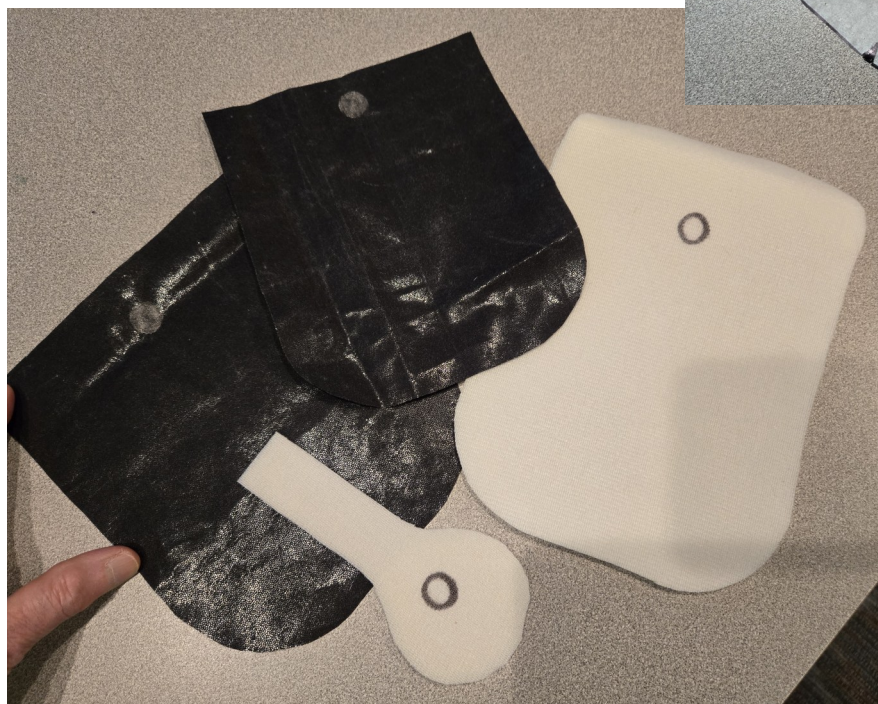

Steps 1a-d- Placing the Magnetic Snaps

1a) Separate both sets of magnets. With a marker, place ONE small identifying dot on each of your set 1 magnet pieces, and TWO small dots on the Set 2 magnets pieces.

1b) Cut out the area WITHIN the mag snap circle printed on the following paper pattern pieces (please note: DO NOT mark or cut into the fabric pieces), Bag(#1), Phone Pouch (#3), Back Pocket(#4) & Closure(#6).

Here they are at right →

1c) Replace & secure pattern templates back on the these items in fabric/foam aligning ALL outside edges: to Closure(#6) & ONE Bag(#1) in foam, & to fusible side of Phone Pouch & Back Pocket in interfacing.

1d) Mark along the inside edges of all four mag snap cutout circles to transfer mag snap placement directly onto each item.

(Please note—I was using black interfacing for this sample, so instead of a marker, I marked the inside of the circle with white chalk.)
