

Wrapsody step 20– Finishing off your Card Caddys

Please keep in mind that the following directions are the same for both the small and the large Caddy. The pictures show the small Caddy at the top of each photo, and the large Caddy on the bottom.

First- align a long unpressed Caddy Facing edge to BOTH sides of each Caddy you make. Stitch just ***a little bit*** ***MORE THAN an 1/8"*** from both sets of edges thru ALL layers.

Next– Press and flip Caddy Facings over each set of raw edges to the underside of each Caddy. Secure them in place with pins then stitch them in place close to all edges thru ALL layers.

Now they'll be ready for step 22.
