

Wrapsody step 24+27+29– Zippered Pocket Divider pictures

Step 24 (above)- Here's one of my zippered pocket dividers.

The side edges have been zig-zagged and please notice that the bottom edges remain unstitched.

(at left)- this picture was taken after we clipped off those zipper tails even with the fabric edge.

Step 27 (above)- Here, step 27 has come to life for you w/the "uncaddied" Back Pocket lying on the Center Pocket. Now we can place the OverFlap RSD on the Back Pocket edge and stitch.

Step 29 (at right)- With OverFlap in place and Front Pocket in place, you can see that we've flipped all the pockets down (Caddy side UP). Now we can place the UnderFlap RSD on the Front Pocket, stitch in place and the inside of our Bag is done. :)
