

The Cosmo Convertible

Steps 33-34

“Shortening Zipper Tail”

33) Mark a line on your zipper ~2” from the Bag corner edge. (You can go ahead and mark it loudly, because these cut ends will never be visible.)

34) Press side zipper edges INWARD (just to make it easier to cram them into the Cap opening.

34 cont.) And here’s the cap all pushed into place. Now all that’s left it to stitch along the Cap edges and make this permanent.

:)
