

The Cosmo Convertible

Steps 39-40- “Attaching Strap Holders”

39) Perch and center your Strap holder on the zippertail Bag corner. You'll need to pull zipper out of the way as you pin it in place.

The Cosmo Convertible

Steps 39-40 (cont.)

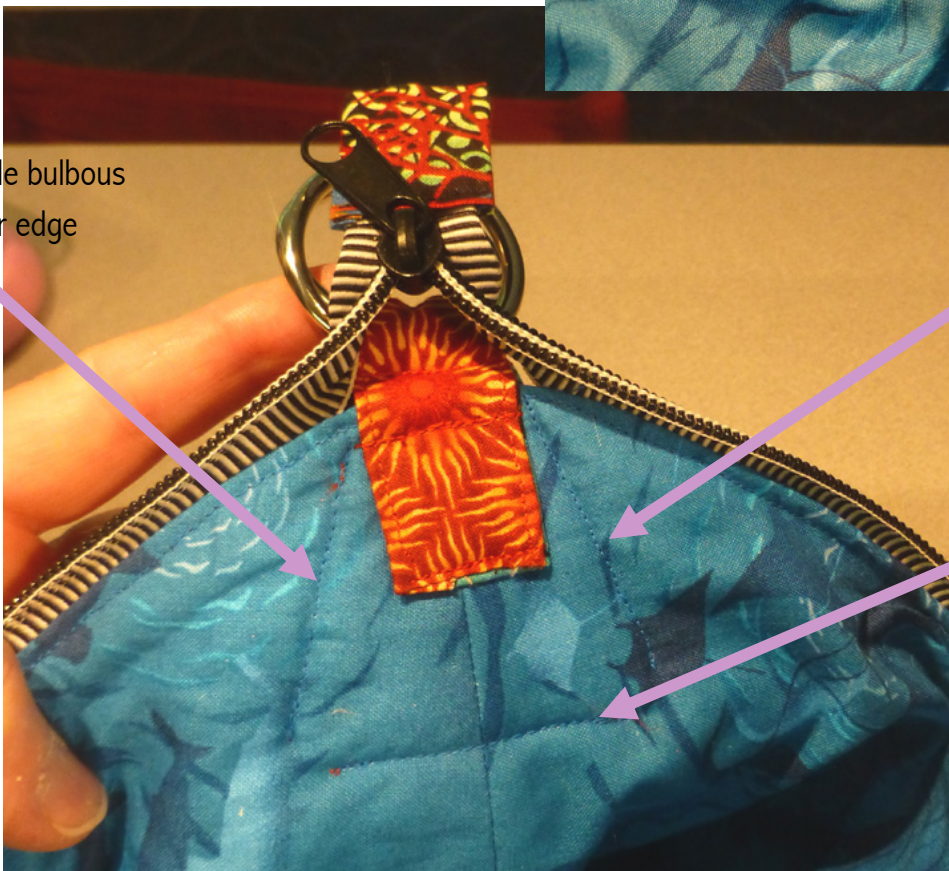

3/8" below
O-ring stitching

39) Stitch it in place in four places- (indicated with lavender arrows) First ~3/8" BELOW the O-ring stitching you did in step 38, second along the bottom skinny Strap Holder edge, and also along outside bulbous edges of Strap Holder. In the photo below you can see how this stitching looks on the INSIDE of your bag. (Notice that I do NOT stitch in the curved corners of the Holder)

Along skinny
Strap Holder edge

Along outside bulbous
