

Festival Pocket Belt- Attaching Pockets to Panel 1 - Steps 17-18

Here's a few color pictures of the Large and the Small Pockets pinned in place to Panel 1.

Festival Pocket Belt
Steps 17-18
Page 2

The pockets should “pooch-out” about 2” as this pocket does at right.

When it comes time to stitch Pocket to Panel, I recommend starting at the top left corner and stitching only to the bottom pin roughly in the center of the Pocket.

In the picture above, you can see that the Left side edge of the Phone Pocket is stitched in place.

At left- we are now stitching the right side in place, starting again at the top corner and stitching down to bottom center with a zipper foot in place.

And in these two pictures you can see that we're repeated the procedure in the same way to attach the small Pocket to the Panel.
