

Zipper Placement- Steps 6-7

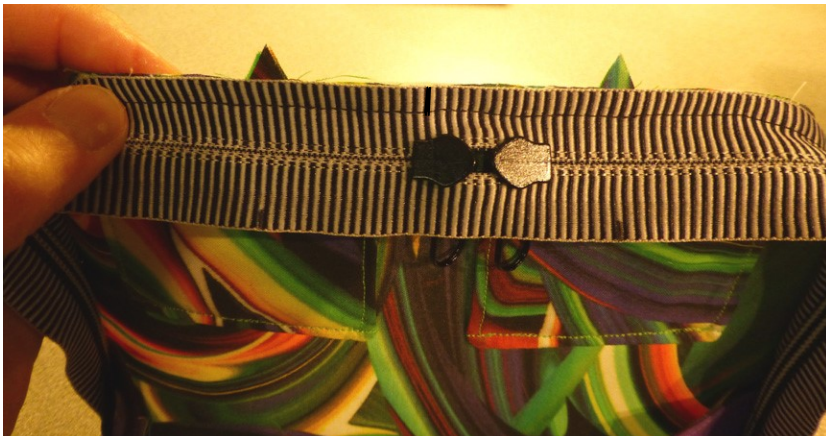

Mark the midpoint of your zipper.

Center this mark at circle on top edge of Zip Pouch in exterior.

Unzip & pin zipper RS DOWN on Zip Pouch, then stitch a scant 1/4" from side double notch to side double notch across top of bag.

Zip both zipperheads back up to a closed position at top center of Zip Pouch, then mark BOTH single notch placements on WS of free zippertape edge, then transfer these markings to RS of zipper, as they will be needed in step 20.
