

## Toptitching

Step 44a— To prepare for the topstitching, pin from the bag exterior thru to the lining, to keep the entire area flat. Remember to pin both of your Loops and Snap Tabs UP and away from the stitching area.

Step 44b— Here's a closeup of the area showing the Snap Tab pinned UP.

## DittyRoo Pictorial Help- [DRstep44.pdf](#) (cont.)

Step 44c— Here's the bag with the topstitching all done. Did you notice that I did NOT topstitch over the Roo Edgings. With some fabrics, I think topstitching in that area detracts from the overall Look of the Bag. So to topstitch over the Roo Edging or not? It's your preference.

Step 44d— This closeup of the Roo Edging shows how I stopped the topstitching just before the Edging, and started topstitching again just on the other side. :)
