# Uptown Saddlebag
Snap Pouch Lining– steps 16-19

16) Place Base/Vent in lining RST along bottom edge of Snap Pouch lining (from step 14). Match ALL notches in place. *Single notch on Pocket Side edge(below triple notch) aligns w/ Base/Vent seam.* You'll have loose fabric between <u>every</u> notch.

17) Pinch loose fabric between notches even w/Base edges, bending it towards nearest double notch. Stitch 1/4" from raw edges. Carefully clip curves.

Snap Pouch Lining (continued)– steps 16-19

19) This is how your completed Snap Pouch looks
after step 19 is completed.
