

the Ergo Bag

Steps F1 Cutting out TWO identical Zip Bands(#13) in contrast

F1— The important thing here is to make sure BOTH of your Zip Bands(#13) in contrast are cut out the EXACTLY same way (with pattern piece WSD on the RS of your contrast fabric.)

F2— Now cut two identical Zip Bands in fusible interfacing by placing the pattern piece (#13) WSD on the FUSIBLE side of interfacing. (in similar fashion to steps C2).
