

the ErgoMatic

Steps 56a-57b—

Attaching Side Walls to Bag Back

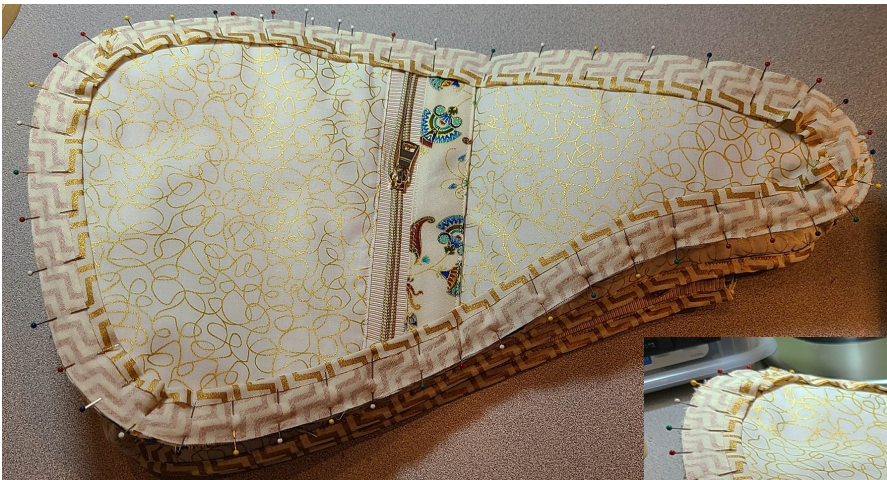

These pictures
illustrate steps 56a + b.

Notice that sewing takes
place with Bag Front
facing DOWN on machine
bed

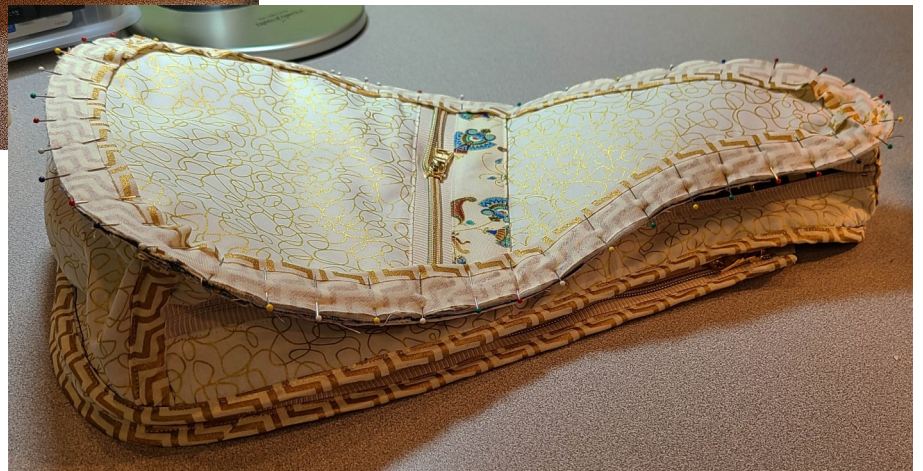

**And once again,
just as in steps
53a-55, I
generally use a
dark thread (for
top and bottom)
to do this
stitching.**

Here's step 57a -

the bias tap is pinned in place on Bag Front lining.

(see next page)

the ErgoMatic

Steps 56a-57b—

Attaching Side Walls to Bag Back (cont.)

Here's the bias tape being sewn into place.

Notice that this is done with the Bag Front being face-down onto the machine bed once again

And here's a couple shots of the finished ErgoMatic (completely inside out of course)
