9a) Retrieve Flap(#4) in exterior from step A3. Open zipper completely & align curved Flap edge RSD on RS of zipper centering double notch with mark on free edge of zipper.

Please note: that its WAY EASIER to do this by pinning just ONE side of this Flap to your zipper at a time.

With your double notch pinned in place at that zipper mark, pin your Flap in place just a bit at a time moving OUTWARD toward the left side edge of Flap.

Now stitch just this section of your Flap in place a scant 1/4" from edges.

9b) Now pin the remainder of this Flap edge in place just a bit at a time moving OUTWARD toward the RIGHT side edge of Flap.

Stitch just this section of your Flap in place a scant 1/4" from edges
