

the Expand-o-matic
Steps 28+29: Aligning Expanders
to Bag Front & Back

Step 28+29: (*step 28 is pictured here*) It is important that the bottom edges of the Topper, & the top edges of the Back Pocket (*for step 28*) be snugged up tightly against each other.

For step 29, the Topper will be snugged up against the upper edge of the Front pocket (*NOT the top edge of the zipper*).
