the AeroSling

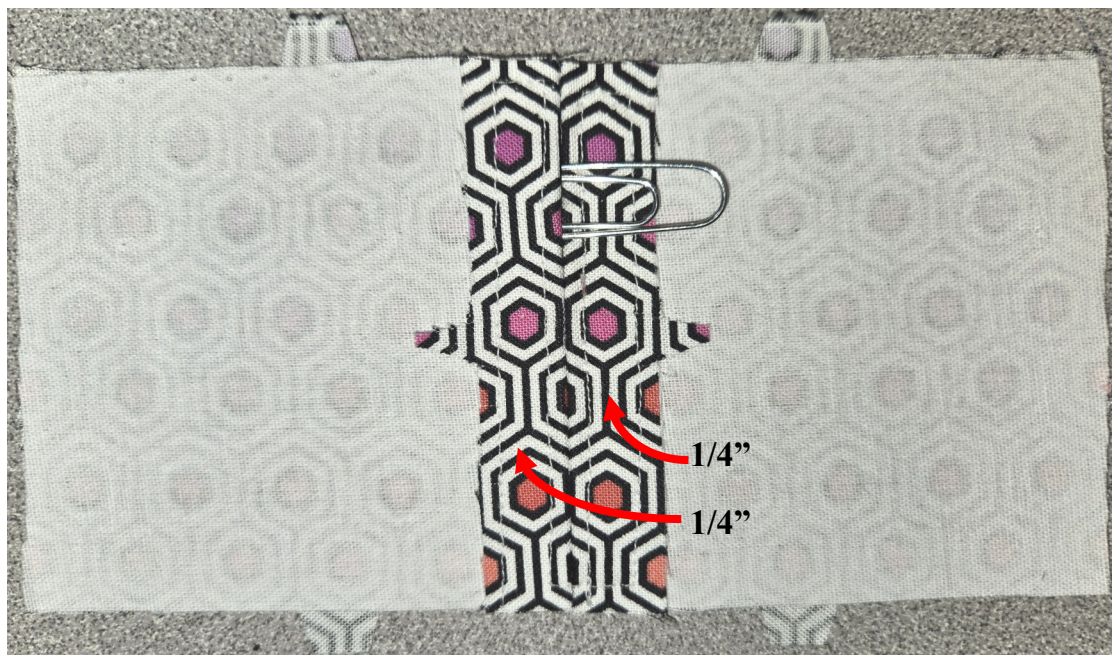

Steps H1-H4: Creating the Cord Tunnel

H1) Place Cord Tunnels RST aligning single notched edges. Pin in place, then make the following marks.

Stitch 1/2" from edges while observing these markings, EXACTLY as shown at left.

Reinforce stitching. Press seams open & flat.

H2) Topstitch close to seam edges on both sides of seam, then stitch again 1/4" away from this stitching on both sides of seam.

the AeroSling

Steps H1-H4: Creating the Cord Tunnel

H3a) Place the long double-notched Cord Tunnel edge (***the one that is nearest to the "cord opening"***) RST on top edge of a Pouch in exterior (at left).

(The paper clip denotes the locations of the cord Tunnel opening.)

H3b) Stitch 1/4" from edges. Place remaining long Cord Tunnel edge RST w/top edge of Pouch in lining then.....

(Once again, the paper clip denotes the locations of the Cord Tunnel opening.)

H4) Press BOTH seams DOWN toward Pouches.
