the Cargo Strap
Steps 26a+26b– Adding Pouch Floors

Here's a little tip– After clipping off my zipper ends, I like to fold under those side edges so the Floor will totally conceal them. It's not compulsory, but I think it's a better finished look. :)

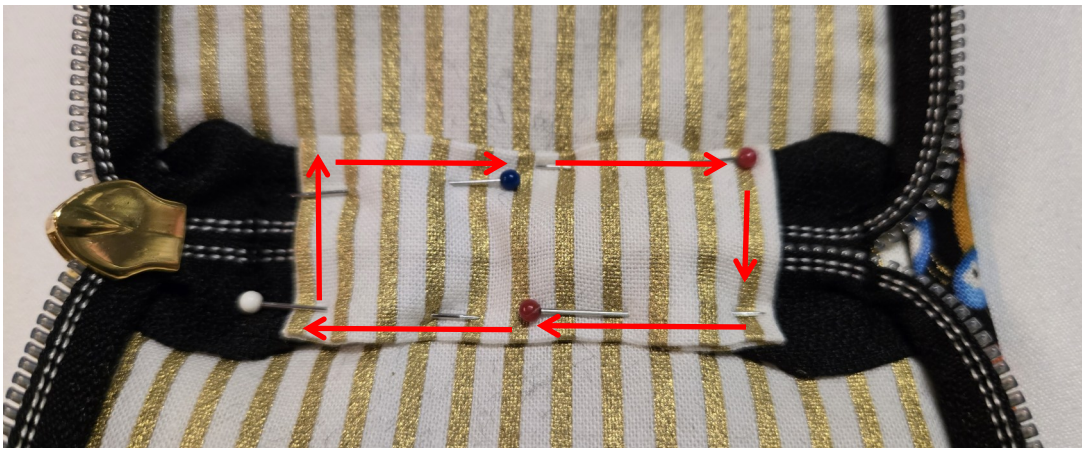

26a) Center & align Floor WSD over cut zipper ends & side edges in center of Pouch.

the Cargo Strap
Steps 26a+26b cont. – Adding Pouch Floors

26b) Using a zipperfoot, topstitch ~1/8" from all four Floor edges, then repeat steps 24a+26b to place a Floor in your Mega Pouch.
Here's a stitching tip— *I like to stitch in the direction of the pin tips, (see red arrows above)so I can remove them as late as possible to prevent under layers from shifting.*

Here's the finished look for both pouches.
